

*One on One Treatments*

*Individualized Programs*

Dear Physician and Staff:

We, at Diversified Physical Therapy want to thank you for your time to review our material and hope that you will consider us as a referral source for the care of your patients. DPT has been in existence in the Muskegon area since 1999 caring for the adolescent patient through the frail elderly. We provide service at two locations on the west and east side of Muskegon County and surrounding areas. We also provide services in the home through contracts with Home Care Agencies and through Medicare Part B. We offer multiple programs in both Physical and Occupational therapy.

Our company is privately owned and started with two therapist growing to a staff of eleven clinicians and office staff. We attribute our growth to excellent patient care holding true to "one on one" therapy and the programs that are developed throughout the course of treatment to meet the goals of each individual patient in regards to their diagnosis. We work very hard to focus on continuity of care which includes maintaining care with the same therapist so scheduling is a priority for our patients.

DPT has contracts with most insurance companies most notable, Medicare, BCBS, BCN, Priority Health, Aetna, Humana, Cofinity, United Health Care, Meridian, ASR and various VA programs to name a few. We also have the confidence of multiple surgeons at Orthopedic Associates of Muskegon, physicians from the Grand Rapids and Holland areas well as several Primary Care Physician's in our area.

Please feel free to use our script pads (available upon request) or you may contact our office with your referrals as you feel comfortable. You can also check us out on our website at [DPTHealth.com](http://DPTHealth.com). We available anytime you have questions or would like to schedule a time to sit down and discuss our treatment philosophy. Again, I want to thank you for your time and look forward to working with you, your staff and your patients in the future.

Sincerely,

*Kevin E. Sprague*
